

Appendix IV:

CCF-Tencent Rhino-Bird Creativity Fund

As a supplement to the Rhino-Bird Scientific research fund, the Rhino-Bird Creativity Fund aims to support excellent applicants in presenting good ideas that have emerged from their research. By applying for domestic or international patents, those applicants retain their own intellectual property rights, while turning their ideas into actual applications on the industrial platforms of Tencent and other companies.

Rhino-Bird Creativity Fund procedure: the targets of the Creativity Fund are projects that have not yet been awarded scientific research funding. When filling out the application form, first choose whether to apply for the Rhino-Bird Creativity Fund. If you choose No, you will not be included in the list. (the specific procedure is shown in the table below).

Rhino-Bird Creativity Fund procedure

Rhino-Bird Creativity Fund rewards: Eligible young scholars will receive a support fund of 50,000 yuan. It is expected that a total of 15-25 applicants will be rewarded in 2020 including 2-5 applicants in the field of WeBank blockchain technology.

Rhino-Bird Creativity Fund intellectual property right: According to the patents for achievements in Rhino-Bird Creativity Fund projects, patent rights are shared jointly by Tencent or WeBank, and the applicant’s institution. Tencent has a preemptive right to use the results free of charge. For details, refer to the cooperative agreement between the sponsor and the applicant’s institution.

**Tencent reserves the right to the final interpretation of the Rhino-Bird Creativity Fund.*
